

Vignettes Learning

Helping people learn and connect
through creative software services

An award winning software and service that helps organizations implement social learning. Includes social networking, discussions, groups, content library, instant publishing, webinars, awards, voting and rating, directories, coaching and learning impacts tracking.

A simple, yet robust Learning Management System that allows small projects to launch at lower cost and faster speed.

A collaborative Web 2.0 tool that facilitates sharing of knowledge and expertise through storytelling.

In the Vignettes Learning community, eLearning specialists and leaders connect with their peers and exchange ideas, coach each other and share resources.

Vignettes Learning presents workshops facilitated by Ray Jimenez, Ph.D. on "3Minute eLearning" and "Story-based eLearning Design."

A subscription service featuring Reusable Games with Flash engines to help non-techie eLearning developers implement highly interactive and aesthetically rich eLearning lessons, games and exercises.
